

# LIFETIME HEALTHCARE COSTS AT-A-GLANCE

According to a new Synchrony Lifetime of Healthcare Costs study, insured individuals surveyed underestimated the amount of out-of-pocket expenses they could pay for health and medical services throughout their lifetime.

## KEY FINDINGS INCLUDE:

**\$320k**

is the estimated amount the average **insured** respondents with an employer-sponsored health insurance plan may spend in **out-of-pocket healthcare costs** in their adult lifetime<sup>1</sup>

Nearly **\$700k**

is the amount insured individuals who **purchase their own insurance** (without employer or government subsidies) or those with chronic illness **may pay** in a lifetime<sup>2</sup>

Insured respondents underestimate their **annual cost of care** by

**145%**<sup>3</sup>

**Life expenses** saved for and their average cost

**80%**

of Americans surveyed said they **do not** have a dedicated savings account for healthcare<sup>3</sup>

**1 in 4**

Individuals said they delayed a recommended procedure due to cost<sup>3</sup>

**50%**

ended up with additional medical issues as a result of delaying care<sup>3</sup>
